Project : Loco Nuts S3
Episode’s Title : Haunted House
Storyline :

One day, John, Ruby, Halley, Blue, and Berry are going to an amusement park. They’re entering the haunted house to test their courage.

Once they’re inside, it’s pretty dark that they only have one choice to move forward. But unable to see things make Halley use her jewel on her chest as a flashlight. John and Ruby get surprised seeing this. Ruby tells Halley that she can’t use her ability at the moment. Ruby shows a signboard that says if you use a flashlight of any kind you will not leave the haunted house. That scares them and justifies Haley unable to use the flashlight (we'll see a signboard where a "flashlight = ghost" or some sort). Once everything’s clear, they start walking forward side by side and looking out each other. (from the front-back: Ruby, Halley, Blue, Berry, John)

While they walking and enjoying the atmosphere, they see a various kind of ghost-trap like popping around them. At first they only get surprised, but since things popped out several times, they’re getting scared and eventually make a little run from it.

After they run from the ghost-trap, everything’s gone silent again. John uses this moment to stop and catch his breath. Unfortunately, his action makes him separated from the group. John is getting anxious about this. He starts to do a little run and since it’s all dark he bumps into one of the ghost prop. The white cloth of the prop falls down on him, makes him like a ghost. But this won’t stop him from looking for his friend and he continues to walk forward.

Meanwhile, Ruby and the group are feeling thrilled and joy at the same time. They let out a small laugh to express it. But then they realize that John separated from them. This situation silence them and they start to get anxious. Ruby looks left and right while Halley, Blue, and Berry look worried. Everyone sees 4 different branches, then they split to look for John *(Ruby goes alone, as well as Halley. And Blue goes with Berry) (The way/door will look like a secret passage once they choose and enter it) (the 3 passages closed with spooky faces on the wall/door, only 1 remaining passage for John later on to pass).*

In the middle of searching the way out, Ruby braces herself (but still look scared) and Halley looks even confused with the passage she walked in. Blue finds a spooky mask (one of the haunted house prop) and ask Berry to wear it together and try to scare Ruby and Halley. Both of them wears it and start to pull a prank on Ruby and Halley. Ruby sees the path has become one again and as soon as she passed it, she looks on her side and meet Halley, who also passes the secret passage. They are happy and continue to regroup with Blue & Berry as well as searching for John. But after a short walk, Ruby and Halley sees 2 figures (Blue & Berry) standing and blocking their way. When Ruby is about to touch them, both 2 figures turn back and showing a scary ghost mask and act like it. Ruby and Halley are freaked out in instant. Blue and Berry keeps their act until they spot a white-floating object (John) from afar coming at their direction. As the white object closing in, Blue & Berry are getting freaked out as well and screamed. By this screaming, Ruby & Halley are screaming, too. Then Blue & Berry run as fast as they can, leaving Ruby and Halley in confusion. But then they hear a screaming behind their

back and it is getting closer. When Ruby & Halley turn their head, they also see what Blue & Berry see earlier and then run as fast as they can (on the run: Blue & Berry - Ruby & Halley - John). Unfortunately, Blue trips over and makes Berry tripped as well. Ruby and Haley also bump into the two and there is chaos as each are trying to scramble from the pile up to run away from the ghost and in the scramble Blue and Berry's mask come off. Ruby and Haley are surprised but there is no time to reprimand them because the ghost figure is still chasing them.

After that, they see a giant figure still behind them wearing a white cloth, spreading its arm as if it tries to spook them. As they reach the limit, they get super scared and scream as loud as they can. At the same time, John, who's behind the white cloth, is surprised and scared with the girls' scream toward him. Then, all of them run as fast as they can toward the exit.

Once they get out from the haunted house, a wind gently blows John's cloth away. And finally they realize that it was John who wears the cloth. But on top of that, they're happy that they can complete the haunted house and laugh together. And as they are laughing, Blue or Berry's face turns scared and she points to something behind them and they turn to see another ghost like thing coming towards them from the darkness (inside the haunted house) and they all freaked out and run away from it.
